

As part of the ongoing process of improving the ASR Pro system in your store, we have created the Parts and Labor Pricing Guide (PLPG) to enhance your dealerships operations. It is important to understand that the PLPG is dependent upon all of the pricing matrix information that is maintained in your DMS by your parts managers. If information is changed in the DMS and is not updated in ASR Pro there will be errors in part pricing in ASR Pro.

ASR Pro will not be responsible for inaccurate pricing if not notified of changes.

Please sign below to acknowledge that:

1. Notification will be given to ASR Pro of any pricing changes;
2. ASR Pro is not responsible for pricing errors due to failure of communication.
